

Product name:	0.1 M Sodium Phosphate Buffer pH 7.4
Production date:	2023-08
Date of release:	2023-08-30
Stability:	2028-08
Form:	White Powder
Composition:	The content dissolved in deionized water and made up to 1 liter yields: 0.10 M Na-phosphate, pH 7.4

Analysis	Specification	Result
Weight	13.79 g \pm 1%	Pass
pH	7.40 \pm 0.05	Pass
Insoluble matter	Passes filter test	Pass

The above material has met all quality specifications and has been reviewed by a quality representative.

Quality Assurance, Asa Engström
